Alathon L4904LSC

High Density Polyethylene

Product Description

Alathon L4904LSC is a bimodal, high molecular weight, high density polyethylene resin with excellent processing characteristics. L4904LSC is selected by customers for pressure pipe applications including industrial piping, mining, oil & gas gathering, municipal water service lines and sewers. Customers typically use L4904LSC in large diameter, thick wall applications requiring high resistance to pipe failure by rapid crack propagation and slow crack growth mechanisms. When L4904LSC is combined with a LyondellBasell approved color or black masterbatch at the correct use level, this compound may meet the following standards or requirements:

- ASTM D3350 Cell Classifications: **PE445574C**. For Oxidative Resistance Classification Categorization values (CC) please contact your LyondellBasell Technical Service Engineer or Sales Manager.
- NSF Standard 14 and Standard 61 for Potable Water Pipe and Fittings
- Plastic Pipe Institute (PPI) PE4710 per PPI TR-3, PE 100 Cell Classification: **PE445576C**

Application	Drainage Pipe; Drinking Water Pipe; Industrial; Soil & Waste Pipe
Market	Industrial, Building & Construction; Pipe
Processing Method	Pipe
