Copolyester  
Engineering Plastics

## Product Description

Impact modified transparent Copolyester compound with high chemical resistance and high flow. Available with and without UV stabilization.

## General

|                     |                     |
|---------------------|---------------------|
| Processing Method   | • Injection Molding |
| Resin ID (ISO 1043) | • Copolyester       |

| Physical                                    | Nominal Value (English) | Nominal Value (SI) | Test Method     |
|---------------------------------------------|-------------------------|--------------------|-----------------|
| Density                                     | 1.18 g/cm³              | 1.18 g/cm³         | ISO 1183/A      |
| Melt Volume-Flow Rate (MVR) (265°C/2.16 kg) | 26 cm³/10min            | 26 cm³/10min       | ISO 1133        |
| Molding Shrinkage                           | 0.40 to 0.60 %          | 0.40 to 0.60 %     | ISO 294-4       |
| Mechanical                                  | Nominal Value (English) | Nominal Value (SI) | Test Method     |
| Tensile Modulus                             | 232000 psi              | 1600 MPa           | ISO 527-2/1A/1  |
| Tensile Stress                              |                         |                    | ISO 527-2/1A/50 |
| Yield                                       | 6820 psi                | 47.0 MPa           |                 |
| Break                                       | 6090 psi                | 42.0 MPa           |                 |
| Tensile Strain (Yield)                      | 6.0 %                   | 6.0 %              | ISO 527-2/1A/50 |
| Nominal Tensile Strain at Break             | 130 %                   | 130 %              | ISO 527-2/1A/50 |
| Flexural Modulus <sup>1</sup>               | 261000 psi              | 1800 MPa           | ISO 178         |
| Flexural Stress <sup>1</sup>                |                         |                    | ISO 178         |
| 6.2% Strain                                 | 10400 psi               | 72.0 MPa           |                 |
| 3.5% Strain                                 | 8410 psi                | 58.0 MPa           |                 |
| 9.0% Strain <sup>2</sup>                    | 9430 psi                | 65.0 MPa           |                 |
| Impact                                      | Nominal Value (English) | Nominal Value (SI) | Test Method     |
| Charpy Notched Impact Strength              |                         |                    | ISO 179/1eA     |
| -22°F (-30°C)                               | 3.3 ft·lb/in²           | 7.0 kJ/m²          |                 |
| 73°F (23°C)                                 | 38 ft·lb/in²            | 80 kJ/m²           |                 |
| Charpy Unnotched Impact Strength            |                         |                    | ISO 179/1eU     |
| -22°F (-30°C)                               | No Break                | No Break           |                 |
| 73°F (23°C)                                 | No Break                | No Break           |                 |
| Hardness                                    | Nominal Value (English) | Nominal Value (SI) | Test Method     |
| Ball Indentation Hardness (H 358/30)        | 13200 psi               | 91.0 MPa           | ISO 2039-1      |
| Thermal                                     | Nominal Value (English) | Nominal Value (SI) | Test Method     |
| Heat Deflection Temperature                 |                         |                    |                 |
| 66 psi (0.45 MPa), Unannealed               | 187 °F                  | 86.0 °C            | ISO 75-2/Bf     |
| 264 psi (1.8 MPa), Unannealed               | 176 °F                  | 80.0 °C            | ISO 75-2/Af     |
| Vicat Softening Temperature                 |                         |                    |                 |
| --                                          | 219 °F                  | 104 °C             | ISO 306/A50     |
| --                                          | 208 °F                  | 98.0 °C            | ISO 306/B50     |
| Electrical                                  | Nominal Value (English) | Nominal Value (SI) | Test Method     |
| Surface Resistivity                         | > 1.0E+15 ohms          | > 1.0E+15 ohms     | IEC 60093       |
| Volume Resistivity                          | > 1.0E+13 ohms·m        | > 1.0E+13 ohms·m   | IEC 62631-3-1   |
