### *Moplen* HP560Y

Polypropylene, Homopolymer

#### Product Description

*Moplen* HP560Y is a polypropylene homopolymer used for extrusion applications. *Moplen* HP560Y has a very high melt flow rate, a very narrow molecular weight distribution and is in pelletized form. *Moplen* HP560Y is produced using a non-phthalate Ziegler/Natta catalyst and is used for the production of meltblown nonwovens with outstanding barrier/filtration properties. *Moplen* HP560Y is also used for compounding applications.

This grade is not intended for medical and pharmaceutical applications.
