lcorene 1505 BLK 9001

Polyethylene, Crosslinked

Product Description

lcorene 1505 Black 9001 is a crosslinkable black high density polyethylene specifically developed for rotational moulding. This grade is particularly suitable for use in applications requiring exceptional impact resistance at low temperature, toughness and excellent ESCR such as fuel tanks. The original cross linking system used is low odor and allows a perfect moulding of the part free of pinholes. *lcorene* 1505 Black 9001 is TÜV approved, protocolnr 163XS0034-00.
