

Starflam® 366

polyamide 66

Starflam 366 (formerly Vydyne® ECO366) is a non-halogenated, unreinforced, flame-retardant PA66 compound designed with high comparative tracking index (CTI) and low corrosion for improved electrical contact performance. It has superior flow properties to assist in filling thin-walled, intricate parts with reduced warpage and reduced cycle time. It is lubricated for machine feed and easy mold release.
