

Vydyne® 21SPC

polyamide 66

Vydyne 21SPC is a general-purpose, unfilled, lubricated, PA66 resin. Designed principally for injection-molding fabrication, this product offers a combination of engineering properties characterized by high strength; rigidity; good toughness; high melt point; good surface lubricity; abrasion resistance; and resistance to many chemicals, machine and motor oils, solvents and gasoline.

21SPC permits production of molded parts with good initial color plus good property and color retention when using regrind.

21SPC is intended for use in high-productivity applications. In many applications, the molding cycle can be reduced because parts may be removed from the cavity at higher temperatures. In difficult molds where parts have a tendency to stick in the cavity, 21SPC can reduce or eliminate the need for mold release sprays. Critical molded-part dimensions should be checked against specifications before implementing shorter molding cycles on a routine production basis.

General

Regional Availability	• North America	• Europe	• Asia Pacific
Additive	• Lubricant		
Features	• Abrasion Resistance • Gasoline Resistant • Good Toughness • Lubricated	• Chemical Resistant • General Purpose • High Rigidity • Oil Resistant	• Fast Molding Cycle • Good Mold Release • High Strength • Solvent Resistant
Agency Rating	• ASTM, D4066 PA0111 • EU, 10/2011 • FED, L-P-410A • RoHS Compliant	• ASTM, D6779 PA0111 • EU, 2023/2006 • MIL, M-20693B • SAE, J1639 PA0121 Z6	• EC, 1935/2004 • FDA, 21 CFR 177.1500 • NSF, STD-51
Automotive Specifications	• GM QK 002921	• Toyota TSM5516G Class 2 (compliance)	
UL File Number	• E70062		
Appearance	• Natural Color		
Forms	• Pellets		
Processing Method	• Injection Molding
