

Safety Data Sheet

ULTRASON® E 6020 P POLYARYLETHERSULFONE

Revision date : 2011/04/20

Page: 1/6

Version: 1.0

(30047251/SDS_GEN_US/EN)

1. Product and Company Identification

Use: Polymer

Company

BASF CORPORATION
100 Campus Drive
Florham Park, NJ 07932, USA

24 Hour Emergency Response Information

CHEMTREC: 1-800-424-9300
BASF HOTLINE: 1-800-832-HELP

Synonyms:

Poly ether sulfone

2. Hazards Identification

Emergency overview

CAUTION:

MAY CAUSE EYE, SKIN AND RESPIRATORY TRACT IRRITATION.

INGESTION MAY CAUSE GASTRIC DISTURBANCES.

Use with local exhaust ventilation.

Wear a NIOSH-certified (or equivalent) particulate respirator.

Wear NIOSH-certified chemical goggles.

Wear protective clothing.

Eye wash fountains and safety showers must be easily accessible.

State of matter: solid

Colour: white

Odour: odourless

Potential health effects**Primary routes of exposure:**

Routes of entry for solids and liquids include eye and skin contact, ingestion and inhalation. Routes of entry for gases include inhalation and eye contact. Skin contact may be a route of entry for liquified gases.

Acute toxicity:

Contact with molten product may cause thermal burns. The resin in pelleted form poses a low hazard.

Irritation / corrosion:

Thermal decomposition products of the substance can irritate the eyes, skin, and respiratory tract.

Sensitization:

The substance is inert.

Chronic toxicity:

Safety Data Sheet

ULTRASON® E 6020 P POLYARYLETHERSULFONE

Revision date : 2011/04/20
Version: 1.0

Page: 2/6
(30047251/SDS_GEN_US/EN)

Carcinogenicity: The substance is inert.

Genotoxicity: The substance is inert.

Signs and symptoms of overexposure:

No significant reaction of the human body to the product known.

Potential environmental effects

Aquatic toxicity:

The product has not been tested. The statement has been derived from the structure of the product. There is a high probability that the product is not acutely harmful to aquatic organisms.

3. Composition / Information on Ingredients

<u>CAS Number</u>	<u>Content (W/W)</u>	<u>Chemical name</u>
25608-63-3	> 98.0 %	Polyethersulfone (PESU)

4. First-Aid Measures

General advice:

Remove contaminated clothing.

If inhaled:

Remove the affected individual into fresh air and keep the person calm. Assist in breathing if necessary. Consult a physician.

If on skin:

Burns caused by molten material require hospital treatment.

If in eyes:

If irritation develops, seek medical attention. In case of contact with the eyes, rinse immediately for at least 15 minutes with plenty of water.

If swallowed:

Ingestion is not likely in the available physical form. If ingested, seek medical attention. Consult a physician.

5. Fire-Fighting Measures

Flash point:		not applicable
Autoignition:	580 - 600 °C	(DIN 54836)
Self-ignition temperature:		not self-igniting

Suitable extinguishing media:

water spray, foam, dry powder

Hazards during fire-fighting:

carbon monoxide, Sulphur dioxide, can be emitted at > 400 °C
Under special fire conditions traces of other toxic substances are possible. Formation of further decomposition and oxidation products depends upon the fire conditions.

Protective equipment for fire-fighting:

Firefighters should be equipped with self-contained breathing apparatus and turn-out gear.

Further information:

Dispose of fire debris and contaminated extinguishing water in accordance with official regulations. Dust can form an explosive mixture with air.

Safety Data Sheet

ULTRASON® E 6020 P POLYARYLETHERSULFONE

Revision date : 2011/04/20

Version: 1.0

Page: 3/6

(30047251/SDS_GEN_US/EN)

6. Accidental release measures

Cleanup:

For small amounts: Pick up with suitable appliance and dispose of.

For large amounts: Pick up with suitable appliance and dispose of.

Further information:

High risk of slipping due to leakage/spillage of product. Dust can form an explosive mixture with air.

7. Handling and Storage

Handling

Protection against fire and explosion:

Take precautionary measures against static discharges. Use antistatic tools. Avoid whirling up the material/product because of the danger of dust explosion. Accumulation of fine dust may entail the risk of a dust explosion in the presence of air. Containers should be earthed during decanting operations.

Storage

General advice:

Keep container tightly closed. Avoid deposition of dust. Protect against moisture.

Storage stability:

Protect against moisture.

8. Exposure Controls and Personal Protection

Advice on system design:

Provide local exhaust ventilation to control dusts/vapours.

Personal protective equipment

Respiratory protection:

Wear a NIOSH-certified (or equivalent) particulate respirator.

Hand protection:

Wear gloves to prevent contact during mechanical processing and/or hot melt conditions.

Eye protection:

Tightly fitting safety goggles (chemical goggles).

General safety and hygiene measures:

Wash soiled clothing immediately.

9. Physical and Chemical Properties

Form: powder, flocks

Odour: odourless

Colour: white

pH value:

not applicable

glass transition

225 °C

(1,013 hPa)

temperature:

Boiling range:

The substance / product decomposes
therefore not determined.

Vapour pressure:

not applicable

Safety Data Sheet

ULTRASON® E 6020 P POLYARYLETHERSULFONE

Revision date : 2011/04/20

Page: 4/6

Version: 1.0

(30047251/SDS_GEN_US/EN)

Density:	1.30 - 1.40 g/cm3	(20 °C, 1,013 hPa)	(EN ISO 1183-1)
Relative density:		No data available.	
Bulk density:	250 - 350 kg/m3	(20 °C, 1,013 hPa)	
Vapour density:		not applicable	
Partitioning coefficient n-octanol/water (log Pow):		not applicable	
Solubility in water:		insoluble	

10. Stability and Reactivity

Minimum ignition energy:

The product is capable of dust explosion.

Conditions to avoid:

Temperature: > 400 degrees Celsius

Substances to avoid:

No substances known that should be avoided.

Decomposition products:

Hazardous decomposition products: carbon monoxide, Sulphur dioxide, Gaseous products of degradation can be given off if the product is greatly overheated.

Thermal decomposition:

> 400 °C

Thermal decomposition above the indicated temperature is possible.

Oxidizing properties:

not fire-propagating

11. Toxicological information

Aspiration Hazard:

No aspiration hazard expected.

Other Information:

Based on our experience and the information available, no adverse health effects are expected if handled as recommended with suitable precautions for designated uses.

12. Ecological Information

Degradability / Persistence

Biological / Abiological Degradation

Evaluation: Experience shows this product to be inert and non-degradable.

Bioaccumulation

The product will not be readily bioavailable due to its consistency and insolubility in water.

13. Disposal considerations

Waste disposal of substance:

Check for possible recycling. May be disposed of or combusted with domestic refuse according to local regulations.

Container disposal:

Packs must be completely emptied.

14. Transport Information

Land transport
USDOT

Not classified as a dangerous good under transport regulations

Sea transport
IMDG

Not classified as a dangerous good under transport regulations

Air transport
IATA/ICAO

Not classified as a dangerous good under transport regulations

15. Regulatory Information

Federal Regulations

Registration status:

Chemical TSCA, US released / listed

EPCRA 311/312 (Hazard categories): Not hazardous;

16. Other Information

Recommended use: Polymer for industrial processing only
Suitable for use in industrial sector: Polymers industry;

HMIS III rating

Health: 1 Flammability: 1 Physical hazard: 0

NFPA and HMIS use a numbering scale ranging from 0 to 4 to indicate the degree of hazard. A value of zero means that the substance possesses essentially no hazard; a rating of four indicates extreme danger. Although similar, the two rating systems are intended for different purposes, and use different criteria. The NFPA system was developed to provide an on-the-spot alert to the hazards of a material, and their severity, to emergency responders. The HMIS system was designed to communicate workplace hazard information to employees who handle hazardous chemicals.

We support worldwide Responsible Care® initiatives. We value the health and safety of our employees, customers, suppliers and neighbors, and the protection of the environment. Our commitment to Responsible
