Allen Custom Thermoplastic Sheet
1305 Lincoln Avenue
Holland, MI 49423

Subject: Bayblend FR3030 000000

Dear Mr. Angell:

In response to your request, PBBs and PBDEs, including pentabromodiphenyl ether and octabromodiphenyl ether, are not intentionally added during the Bayer manufacturing process of the following products:

Bayblend FR3030 000000

In addition, lead, mercury, cadmium, and hexavalent chromium are not intentionally added during the Bayer manufacturing process. These products have not been analyzed for these metals, but we would not expect the total of these metals to exceed 100 ppm.

We hope you will find this information useful. If we may be of any further assistance, please feel free to contact us. Thank you for your interest in our products.

Yours Sincerely,

Robin Ruppel-Kerr
Manager Product Safety
