

August 16, 2006

Dear Valued Customer:

Recently we received a request from yourself or your company regarding disclosure of whether our products that you purchase today contained select substances. We understand that your request for disclosure is likely to ensure your companies compliance with the recent internationally recognized regulations:

RoHS - 2002/95/EC dated 27 January 2003 and amendment 2005/618/EC
WEEE - 2002/96/EC dated 27 January 2003 and amendment 2003/108/EC
EC Directive 2003/11/EC
ELV - 2000/53/EC dated 27 June 2002

We have reviewed these international regulations as they are written today, and based upon our company's interpretation of those regulations, the product(s) that you purchase

Gatone® 5300

from Solvay Advanced Polymers, L.L.C. are in compliance with the regulations for RoHS, EU Directive 2003/11/EC and ELV. The WEEE Directive and its amendment do not apply to the raw material manufacturer. In addition to this and in concert with OEM's in NA, Europe and Japan, we have chosen to participate in a standardized and secure database to provide the necessary information to our customers.

We encourage all of our customer's and suppliers to participate in the International Material Data System (IMDS) database www.mdssystem.com to ensure that all have a secured access to the necessary information needed to make material selections and decisions. Information for several of our products has already been added to the IMDS database. We disclose substances present in our formulations per the specifications set forth in the VDA List of Declarable Materials. Please contact your sales representative directly to find out the most up to date IMDS ID number for these products.

We realize that this is an emerging global issue and as such are continuing to monitor changes in policies and regulations to ensure that we can meet our customer's needs. As changes are finalized and a consensus approach is reached on the type of information that is needed and the best avenue to provide this information, we will work diligently to participate in that communication flow.

As this is an emerging issue, we are not in a position to provide indemnifications, representations or warranties for regulations still under development or consideration. We will continue to warrant as we always have, our product to the

specifications provided with each certificate of analysis, and to meet any other contractual obligations to which we have agreed.

We believe that this will fulfill your companies request in this area. Should you need further assistance, please feel free to contact me by phone at 770-772-8552, by fax at 770-772-8726 or by e-mail at carrie.mcmichael@solvay.com.

Sincerely

Carrie McMichael
Manager, Product Stewardship
Solvay Advanced Polymers, L.L.C.

TEST REPORT

Page 1 of 2

(This Report is issued subject to the terms & conditions set out below)

- Subject** : Analysis on sample submitted by Gharda Chemicals Ltd on 19/10/2004 and testing commences on 20/10/2004.
- Tested For** : **Gharda Chemicals Ltd**
Plot No. 3425-26-26, GIDC Estate
Panoli-394 116
Dist. Bharuch, Gujarat
India
Attn : Mr Patel Kaushey K
- Test Methods** : 1) ICP-OES Analysis for Cadmium and Lead
2) Colorimetrically by UV-VIS Spectrophotometry for Cr⁶⁺
3) FIAS-AAS Analysis for Hg
4) GCMS Analysis for PBBs & PBDEs
- Sample Description** : Sample labeled as follows was received:
Sample Name : Poly Ether Ether Ketone (Gatone 5300)

Results :

Item No.	Element	Result (ppm)	Detection Limit (ppm)
1	Cadmium (Cd)	Not Detected	5
2	Lead (Pb)	Not Detected	10
3	Mercury (Hg)	Not Detected	1
4	Hexavalent Chromium (Cr ⁶⁺)	Not Detected	5
5	Polybrominated Biphenyls, PBBs	Not Detected	100
6	Polybrominated Diphenyl Ethers, PBDEs	Not Detected	100

- Notes: 1) PBBs : C₁₂H_{10-x}Br_x (x=1-6)
2) PBDEs : C₁₂H_{10-x}Br_xO (x=1-6)
3) GC-MS chromatogram is attached on the following page.
