

## Description

Polypropylene PPC 7712 is heterophasic copolymer with a Melt Flow Index of 13 g/10 min combining good fluidity and mechanical properties.

Polypropylene PPC 7712 is characterized by excellent impact resistance and antistatic properties and has been formulated to allow faster cycling through early demoulding.

Polypropylene PPC 7712 has been developed specifically for the injection moulding of pipes, crates, pails and other heavy duty applications.

## Characteristics

|                                  | Method     | Unit              | Typical Value |
|----------------------------------|------------|-------------------|---------------|
| <b>Rheological properties</b>    |            |                   |               |
| Melt Flow Index 230°C/2.16 kg    | ISO 1133   | g/10 min          | 13            |
| <b>Mechanical properties</b>     |            |                   |               |
| Tensile Strength at Yield        | ISO 527-2  | MPa               | 23            |

## Handling and storage

Please refer to the safety data sheet (SDS) for handling and storage information. It is advisable to convert the product within one year after delivery provided storage conditions are used as given in the SDS of our product. SDS may be obtained from the website: <http://www.totalrefiningchemicals.com>

An Injection Moulding troubleshooting guide is available upon request.
