

PolyOne LL 440 Black

Linear Low Density Polyethylene

Key Characteristics

Product Description

Black masterbatch with an LLDPE carrier resin, suitable for use with polyethylene and polypropylene resins for injection molding.

General

Material Status	• Commercial: Active		
Regional Availability	• North America		
Features	• Dispersible	• Good Color Stability	
Uses	• Color Concentrates		
Appearance	• Black		
Forms	• Pellets		
Processing Method	• Compression Molding	• Injection Molding	• Profile Extrusion

Technical Properties ¹

Physical	Typical Value (English)	Typical Value (SI)	Test Method
Specific Gravity	1.2 %	1.2 %	ASTM D792
Ash Content	40 %	40 %	ASTM D5630

Notes

¹ Typical values are not to be construed as specifications.
