

## PolyOne PE 335-4710L Black

### Linear Medium Density Polyethylene

#### Key Characteristics

##### Product Description

Black masterbatch with a LMDPE carrier resin, suitable for use with polyethylene and polypropylene resins in pipe and other profile extrusions.

##### General

Material Status	• Commercial: Active
Regional Availability	• North America
Features	• Chlorine Resistant • Good Thermal Stability
Uses	• Color Concentrates
Appearance	• Black
Forms	• Pellets
Processing Method	• Pipe Extrusion • Profile Extrusion

#### Technical Properties <sup>1</sup>

Additional Information	Typical Value (English)	Typical Value (SI)	Test Method
Carrier Resin	3.60 g/10 min	3.60 g/10 min	ASTM D1238
Pigment Content	35 %	35 %	ASTM D5630

#### Notes

<sup>1</sup> Typical values are not to be construed as specifications.
