SUPRENE[®] 6075WF

SUPRENE[®] 6075WF

SUPRENE EPDM 6075WF is a non-aromatic oil extended 'friable bale' ENB type grade which contains 75phr of non-staining paraffinic oil.

SUPRENE EPDM 6075WF is possible to load it with high concentration of fillers etc. When blended with non-oil extended SUPRENE EPDM grade, the SUPRENE EPDM 6075WF improves the properties and processability (at mixing and extruding) of the non-oil extended grade and it has good physical properties at the low temperature. It can be formulated to make products of lower hardness. Its blend with diene-type rubber gives excellent physical properties.

SUPRENE EPDM 6075WF is mainly used in automotive parts such as window seal, hose, and various industrial parts.
