

Luran® S KR2867C WU
(ASA+PC)

INEOS Styrolution

Luran® S KR2867C WU is a blend of ASA with PC, shows high heat and high impact resistance and long-term property retention. Its UV resistance is not only sufficient for all kind of interior applications – incl. unpainted surfaces in light colors – but also for exterior parts with medium weatherability requirements. Luran® S KR2867C WU is a V-0 flame-protected grade based on phosphorus flame retardants. It can be easily processed and provides good mechanical properties.
