

## ATEVA® 1212A

|         |                |              |                                 |
|---------|----------------|--------------|---------------------------------|
| Version | Revision Date: | SDS Number:  | Date of last issue: -           |
| 1.0     | 2023/05/09     | 000000057641 | Date of first issue: 2023/05/09 |

### 1. PRODUCT AND COMPANY IDENTIFICATION

Product name : ATEVA® 1212A  
Product code : 000000000021054132

#### Manufacturer or supplier's details

Company : Celanese (Shanghai) International Trading Co., Ltd  
Address : 4560 Jinke Road, Zhangjiang, Pudong  
Shanghai, China 201210  
Telephone :  
Emergency telephone number : CHEMTREC International phone number: +1-703-527 3887,  
+86 532 8388-9090 (China, 24h)  
E-mail address : HazCom@celanese.com

#### Recommended use of the chemical and restrictions on use

Recommended use : Plastic processing industry

### 2. HAZARDS IDENTIFICATION

#### Emergency Overview

|            |                      |
|------------|----------------------|
| Appearance | : solid              |
| Colour     | : transparent        |
| Odour      | : mild, vinegar-like |

Not a hazardous substance or mixture.

#### GHS Classification

Not a hazardous substance or mixture.

#### GHS label elements

Not a hazardous substance or mixture.

#### Physical and chemical hazards

Not classified based on available information.

#### Health hazards

Not classified based on available information.

#### Environmental hazards

Not classified based on available information.

#### Other hazards which do not result in classification

None known.

# SAFETY DATA SHEET

according to GB/T 16483 and GB/T 17519

## ATEVA® 1212A

Version 1.0      Revision Date: 2023/05/09      SDS Number: 000000057641      Date of last issue: -  
Date of first issue: 2023/05/09

### 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture : Mixture

#### Components

| Chemical name                      | CAS-No.    | Concentration (% w/w) |
|------------------------------------|------------|-----------------------|
| Vinyl Acetate - Ethylene Copolymer | 24937-78-8 | > 98                  |

### 4. FIRST AID MEASURES

General advice : Do not leave the victim unattended.

If inhaled : If unconscious, place in recovery position and seek medical advice.  
If symptoms persist, call a physician.

In case of skin contact : Cool skin rapidly with cold water after contact with molten material.  
Do not peel solidified product off the skin.  
Burns must be treated by a physician.

In case of eye contact : Remove contact lenses.  
Protect unharmed eye.  
If eye irritation persists, consult a specialist.

If swallowed : Keep respiratory tract clear.  
Do not give milk or alcoholic beverages.  
Never give anything by mouth to an unconscious person.  
If symptoms persist, call a physician.

Most important symptoms and effects, both acute and delayed : None known.

Notes to physician : Treat symptomatically.

### 5. FIREFIGHTING MEASURES

Suitable extinguishing media : Water  
Foam  
Dry chemical  
Carbon dioxide (CO<sub>2</sub>)

Specific hazards during fire-fighting : Do not use a solid water stream as it may scatter and spread fire.

Hazardous combustion products : Carbon oxides

Specific extinguishing methods : Standard procedure for chemical fires.  
Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Special protective equipment for firefighters : Wear self-contained breathing apparatus for firefighting if necessary.

### 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protection : Avoid dust formation.

## ATEVA® 1212A

|         |                |              |                                 |
|---------|----------------|--------------|---------------------------------|
| Version | Revision Date: | SDS Number:  | Date of last issue: -           |
| 1.0     | 2023/05/09     | 000000057641 | Date of first issue: 2023/05/09 |

|                                                       |   |                                                                                                                                  |
|-------------------------------------------------------|---|----------------------------------------------------------------------------------------------------------------------------------|
| tive equipment and emergency procedures               |   | Avoid breathing dust.<br>Ensure adequate ventilation.                                                                            |
| Environmental precautions                             | : | No special environmental precautions required.                                                                                   |
| Methods and materials for containment and cleaning up | : | Pick up and arrange disposal without creating dust.<br>Sweep up and shovel.<br>Keep in suitable, closed containers for disposal. |

### 7. HANDLING AND STORAGE

#### Handling

|                                                 |   |                                                                                                                                       |
|-------------------------------------------------|---|---------------------------------------------------------------------------------------------------------------------------------------|
| Advice on protection against fire and explosion | : | Provide appropriate exhaust ventilation at places where dust is formed.<br>During processing, dust may form explosive mixture in air. |
|-------------------------------------------------|---|---------------------------------------------------------------------------------------------------------------------------------------|

|                         |   |                                                                                                                                                                    |
|-------------------------|---|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Advice on safe handling | : | For personal protection see section 8.<br>Smoking, eating and drinking should be prohibited in the application area.<br>Minimize dust generation and accumulation. |
|-------------------------|---|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|

|                      |   |                         |
|----------------------|---|-------------------------|
| Avoidance of contact | : | Strong oxidizing agents |
|----------------------|---|-------------------------|

#### Storage

|                             |   |                                                                                                                                                                                                                                       |
|-----------------------------|---|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Conditions for safe storage | : | Keep in a dry, cool place.<br>Maintain dryness of resin<br>To maintain product quality, do not store in heat or direct sunlight.<br>Electrical installations / working materials must comply with the technological safety standards. |
|-----------------------------|---|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

|                    |   |                                          |
|--------------------|---|------------------------------------------|
| Materials to avoid | : | No materials to be especially mentioned. |
|--------------------|---|------------------------------------------|

|                                          |   |                                                     |
|------------------------------------------|---|-----------------------------------------------------|
| Further information on storage stability | : | No decomposition if stored and applied as directed. |
|------------------------------------------|---|-----------------------------------------------------|

### 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

#### Components with workplace control parameters

Contains no substances with occupational exposure limit values.

|                      |   |               |
|----------------------|---|---------------|
| Engineering measures | : | Local exhaust |
|----------------------|---|---------------|

#### Personal protective equipment

|                        |   |                                                                                                                                                     |
|------------------------|---|-----------------------------------------------------------------------------------------------------------------------------------------------------|
| Respiratory protection | : | No personal respiratory protective equipment normally required.<br>In the case of dust or aerosol formation use respirator with an approved filter. |
|------------------------|---|-----------------------------------------------------------------------------------------------------------------------------------------------------|

|                     |   |                |
|---------------------|---|----------------|
| Eye/face protection | : | Safety glasses |
|---------------------|---|----------------|

|                          |   |                 |
|--------------------------|---|-----------------|
| Skin and body protection | : | Protective suit |
|--------------------------|---|-----------------|

|                 |   |  |
|-----------------|---|--|
| Hand protection | : |  |
|-----------------|---|--|

|         |   |                   |
|---------|---|-------------------|
| Remarks | : | Protective gloves |
|---------|---|-------------------|

|                  |   |                                      |
|------------------|---|--------------------------------------|
| Hygiene measures | : | General industrial hygiene practice. |
|------------------|---|--------------------------------------|

### 9. PHYSICAL AND CHEMICAL PROPERTIES

|                                                  |                                                                       |
|--------------------------------------------------|-----------------------------------------------------------------------|
| Appearance                                       | : solid                                                               |
| Colour                                           | : transparent                                                         |
| Odour                                            | : mild, vinegar-like                                                  |
| Melting point/range                              | : For further information, refer to the product technical data sheet. |
| Boiling point/boiling range                      | : Not applicable                                                      |
| Flash point                                      | : Not applicable                                                      |
| Upper explosion limit / Upper flammability limit | : No data available                                                   |
| Lower explosion limit / Lower flammability limit | : Not applicable                                                      |
| Vapour pressure                                  | : No data available                                                   |
| Density                                          | : ca. 0.9 g/cm <sup>3</sup>                                           |
| Solubility(ies)<br>Water solubility              | : insoluble                                                           |
| Partition coefficient: n-octanol/water           | : No data available                                                   |
| Auto-ignition temperature                        | : > 330 °C                                                            |
| Decomposition temperature                        | : > 300 °C                                                            |
| Viscosity<br>Viscosity, kinematic                | : Not applicable                                                      |
| Particle size                                    | : No data available                                                   |

### 10. STABILITY AND REACTIVITY

|                                    |                                                                                                                                    |
|------------------------------------|------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity                         | : No decomposition if stored and applied as directed.                                                                              |
| Chemical stability                 | : No decomposition if stored and applied as directed.                                                                              |
| Possibility of hazardous reactions | : Stable under recommended storage conditions.<br>No hazards to be specially mentioned.<br>Dust may form explosive mixture in air. |
| Conditions to avoid                | : No data available                                                                                                                |
| Incompatible materials             | : Strong oxidizing agents                                                                                                          |
| Hazardous decomposition products   | : acetic acid                                                                                                                      |

### 11. TOXICOLOGICAL INFORMATION

#### Acute toxicity

Not classified based on available information.

#### Components:

##### Vinyl Acetate - Ethylene Copolymer:

Acute oral toxicity : LD50 (Rat): > 5,000 mg/kg

#### Skin corrosion/irritation

Not classified based on available information.

#### Serious eye damage/eye irritation

Not classified based on available information.

#### Respiratory or skin sensitisation

##### Skin sensitisation

Not classified based on available information.

##### Respiratory sensitisation

Not classified based on available information.

##### Germ cell mutagenicity

Not classified based on available information.

##### Carcinogenicity

Not classified based on available information.

##### Reproductive toxicity

Not classified based on available information.

##### STOT - single exposure

Not classified based on available information.

##### STOT - repeated exposure

Not classified based on available information.

##### Aspiration toxicity

Not classified based on available information.

#### Further information

#### Product:

Remarks : No data available

### **12. ECOLOGICAL INFORMATION**

#### **Ecotoxicity**

##### **Components:**

##### **Vinyl Acetate - Ethylene Copolymer:**

Toxicity to fish : LC50 (Danio rerio (zebra fish)): > 500 mg/l  
Exposure time: 96 h

#### **Persistence and degradability**

No data available

#### **Bioaccumulative potential**

No data available

#### **Mobility in soil**

No data available

#### **Other adverse effects**

##### **Product:**

Additional ecological information : No data available

---

### **13. DISPOSAL CONSIDERATIONS**

#### **Disposal methods**

Waste from residues : Dispose of in accordance with local regulations.  
Contaminated packaging : Empty containers should be taken to an approved waste handling site for recycling or disposal.

---

### **14. TRANSPORT INFORMATION**

#### **International Regulations**

##### **UNRTDG**
