## ATEVA® 1806A

|         |                |              |                                 |
|---------|----------------|--------------|---------------------------------|
| Version | Revision Date: | SDS Number:  | Date of last issue: -           |
| 1.1     | 2022/05/17     | 000000034383 | Date of first issue: 2019/05/02 |

### 1. PRODUCT AND COMPANY IDENTIFICATION

Product name : ATEVA® 1806A

Product code : 000000000021021749

#### Manufacturer or supplier's details

Company : Celanese (Shanghai) International Trading Co., Ltd

Address : 4560 Jinke Road, Zhangjiang, Pudong  
Shanghai, China 201210

Telephone :

Emergency telephone number : CHEMTREC International phone number: +1-703-527 3887,  
+86 532 8388-9090 (China, 24h)

E-mail address : HazCom@celanese.com

#### Recommended use of the chemical and restrictions on use

Recommended use : Plastic processing industry

### 2. HAZARDS IDENTIFICATION

#### Emergency Overview

|            |                      |
|------------|----------------------|
| Appearance | : solid              |
| Odour      | : mild, vinegar-like |

Not a hazardous substance or mixture.

#### GHS Classification

Not a hazardous substance or mixture.

#### GHS label elements

Not a hazardous substance or mixture.

#### Physical and chemical hazards

Not classified based on available information.

#### Health hazards

Not classified based on available information.

#### Environmental hazards

Not classified based on available information.

#### Other hazards which do not result in classification

None known.

# SAFETY DATA SHEET

according to GB/T 16483 and GB/T 17519

## ATEVA® 1806A

|         |                |              |                                 |
|---------|----------------|--------------|---------------------------------|
| Version | Revision Date: | SDS Number:  | Date of last issue: -           |
| 1.1     | 2022/05/17     | 000000034383 | Date of first issue: 2019/05/02 |

### 3. COMPOSITION/INFORMATION ON INGREDIENTS

#### Components

| Chemical name                      | CAS-No.    | Concentration (% w/w) |
|------------------------------------|------------|-----------------------|
| Vinyl Acetate - Ethylene Copolymer | 24937-78-8 | > 98                  |

### 4. FIRST AID MEASURES

|                                                             |                                                                                                                                                                                 |
|-------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| General advice                                              | : Do not leave the victim unattended.                                                                                                                                           |
| If inhaled                                                  | : If unconscious, place in recovery position and seek medical advice.<br>If symptoms persist, call a physician.                                                                 |
| In case of skin contact                                     | : Cool skin rapidly with cold water after contact with molten material.<br>Do not peel solidified product off the skin.<br>Burns must be treated by a physician.                |
| In case of eye contact                                      | : Remove contact lenses.<br>Protect unharmed eye.<br>If eye irritation persists, consult a specialist.                                                                          |
| If swallowed                                                | : Keep respiratory tract clear.<br>Do not give milk or alcoholic beverages.<br>Never give anything by mouth to an unconscious person.<br>If symptoms persist, call a physician. |
| Most important symptoms and effects, both acute and delayed | : None known.                                                                                                                                                                   |
| Notes to physician                                          | : Treat symptomatically.                                                                                                                                                        |

### 5. FIREFIGHTING MEASURES

|                                               |                                                                                                                                                     |
|-----------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------|
| Suitable extinguishing media                  | : Water<br>Foam<br>Dry chemical<br>Carbon dioxide (CO <sub>2</sub> )                                                                                |
| Specific hazards during fire-fighting         | : Do not use a solid water stream as it may scatter and spread fire.                                                                                |
| Hazardous combustion products                 | : Carbon oxides                                                                                                                                     |
| Specific extinguishing methods                | : Standard procedure for chemical fires.<br>Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. |
| Special protective equipment for firefighters | : Wear self-contained breathing apparatus for firefighting if necessary.                                                                            |

### 6. ACCIDENTAL RELEASE MEASURES

|                                                                   |                                                  |
|-------------------------------------------------------------------|--------------------------------------------------|
| Personal precautions, protective equipment and emergency measures | : Avoid dust formation.<br>Avoid breathing dust. |
|-------------------------------------------------------------------|--------------------------------------------------|

## ATEVA® 1806A

|         |                |              |                                 |
|---------|----------------|--------------|---------------------------------|
| Version | Revision Date: | SDS Number:  | Date of last issue: -           |
| 1.1     | 2022/05/17     | 000000034383 | Date of first issue: 2019/05/02 |

|                                                       |                                                                                                                                    |
|-------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------|
| agency procedures                                     | Ensure adequate ventilation.                                                                                                       |
| Environmental precautions                             | : No special environmental precautions required.                                                                                   |
| Methods and materials for containment and cleaning up | : Pick up and arrange disposal without creating dust.<br>Sweep up and shovel.<br>Keep in suitable, closed containers for disposal. |

### 7. HANDLING AND STORAGE

#### Handling

|                                                 |                                                                                                                                                                      |
|-------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Advice on protection against fire and explosion | : Provide appropriate exhaust ventilation at places where dust is formed.<br>During processing, dust may form explosive mixture in air.                              |
| Advice on safe handling                         | : For personal protection see section 8.<br>Smoking, eating and drinking should be prohibited in the application area.<br>Minimize dust generation and accumulation. |
| Avoidance of contact                            | : Strong oxidizing agents                                                                                                                                            |

#### Storage

|                                          |                                                                                                                                                                                                                                         |
|------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Conditions for safe storage              | : Keep in a dry, cool place.<br>Maintain dryness of resin<br>To maintain product quality, do not store in heat or direct sunlight.<br>Electrical installations / working materials must comply with the technological safety standards. |
| Materials to avoid                       | : No materials to be especially mentioned.                                                                                                                                                                                              |
| Further information on storage stability | : No decomposition if stored and applied as directed.                                                                                                                                                                                   |

### 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

#### Components with workplace control parameters

Contains no substances with occupational exposure limit values.

|                      |                 |
|----------------------|-----------------|
| Engineering measures | : Local exhaust |
|----------------------|-----------------|

#### Personal protective equipment

|                          |                                                                                                                                                       |
|--------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------|
| Respiratory protection   | : No personal respiratory protective equipment normally required.<br>In the case of dust or aerosol formation use respirator with an approved filter. |
| Eye/face protection      | : Safety glasses                                                                                                                                      |
| Skin and body protection | : Protective suit                                                                                                                                     |
| Hand protection          |                                                                                                                                                       |

|                  |                                        |
|------------------|----------------------------------------|
| Remarks          | : Protective gloves                    |
| Hygiene measures | : General industrial hygiene practice. |

### 9. PHYSICAL AND CHEMICAL PROPERTIES

|                           |                      |
|---------------------------|----------------------|
| Appearance                | : solid              |
| Odour                     | : mild, vinegar-like |
| Flash point               | : Not applicable     |
| Solubility(ies)           |                      |
| Water solubility          | : insoluble          |
| Auto-ignition temperature | : > 330 °C           |
| Decomposition temperature | : > 300 °C           |

### 10. STABILITY AND REACTIVITY

|                                    |                                                                                                                                    |
|------------------------------------|------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity                         | : No decomposition if stored and applied as directed.                                                                              |
| Chemical stability                 | : No decomposition if stored and applied as directed.                                                                              |
| Possibility of hazardous reactions | : Stable under recommended storage conditions.<br>No hazards to be specially mentioned.<br>Dust may form explosive mixture in air. |
| Conditions to avoid                | : No data available                                                                                                                |
| Incompatible materials             | : Strong oxidizing agents                                                                                                          |

### 11. TOXICOLOGICAL INFORMATION

#### Acute toxicity

Not classified based on available information.

#### Components:

#### Vinyl Acetate - Ethylene Copolymer:

Acute oral toxicity : LD50 (Rat): > 5,000 mg/kg

#### Skin corrosion/irritation

Not classified based on available information.

#### Serious eye damage/eye irritation

Not classified based on available information.

#### Respiratory or skin sensitisation

#### Skin sensitisation

Not classified based on available information.

#### Respiratory sensitisation

Not classified based on available information.

#### Germ cell mutagenicity

Not classified based on available information.

### **Carcinogenicity**

Not classified based on available information.

### **Reproductive toxicity**

Not classified based on available information.

### **STOT - single exposure**

Not classified based on available information.

### **STOT - repeated exposure**

Not classified based on available information.

### **Aspiration toxicity**

Not classified based on available information.

### **Further information**

#### **Product:**

Remarks : No data available

---

## 12. ECOLOGICAL INFORMATION

### **Ecotoxicity**

#### **Components:**

#### **Vinyl Acetate - Ethylene Copolymer:**

Toxicity to fish : LC50 (Danio rerio (zebra fish)): > 500 mg/l  
Exposure time: 96 h

### **Persistence and degradability**

No data available

### **Bioaccumulative potential**

No data available

### **Mobility in soil**

No data available

### **Other adverse effects**

#### **Product:**

Additional ecological information : No data available

---

## 13. DISPOSAL CONSIDERATIONS

### **Disposal methods**

Waste from residues : Dispose of in accordance with local regulations.  
Contaminated packaging : Empty containers should be taken to an approved waste handling site for recycling or disposal.
