### 1. PRODUCT AND COMPANY IDENTIFICATION

Product name : FORTRON® 1342L4 STIROFOR3001 NATURAL (CN)  
CELCON® A1  
Product code : 000000000021051858

#### Manufacturer or supplier's details

Company : Celanese (Shanghai) International Trading Co., Ltd  
Address : 4560 Jinke Road, Zhangjiang, Pudong  
Shanghai, China 201210  
Telephone :  
Emergency telephone number : CHEMTREC International phone number: +1-703-527 3887,  
+86 532 8388-9090 (China, 24h)  
E-mail address : HazCom@celanese.com

#### Recommended use of the chemical and restrictions on use

Recommended use : Plastic processing industry

### 2. HAZARDS IDENTIFICATION

#### Emergency Overview

Appearance : pellets  
Odour : slight

Not a hazardous substance or mixture.

#### GHS Classification

Not a hazardous substance or mixture.

#### GHS label elements

Not a hazardous substance or mixture.

#### Physical and chemical hazards

Not classified based on available information.

#### Health hazards

Not classified based on available information.

#### Environmental hazards

Not classified based on available information.

# SAFETY DATA SHEET

|----------------|------------------------------|-----------------------------|----------------------------------------------------------|
| Version<br>1.0 | Revision Date:<br>2021/12/23 | SDS Number:<br>000000051123 | Date of last issue: -<br>Date of first issue: 2021/12/23 |
|----------------|------------------------------|-----------------------------|----------------------------------------------------------|

### Other hazards which do not result in classification

None known.

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

### Components

| Chemical name           | CAS-No.    | Concentration (% w/w) |
|-------------------------|------------|-----------------------|
| glass, oxide, chemicals | 65997-17-3 | >= 30 -< 50           |

## 4. FIRST AID MEASURES

|                                                             |                                                                                                                                                                                 |
|-------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| General advice                                              | : Do not leave the victim unattended.                                                                                                                                           |
| If inhaled                                                  | : If unconscious, place in recovery position and seek medical advice.<br>If symptoms persist, call a physician.                                                                 |
| In case of skin contact                                     | : Cool skin rapidly with cold water after contact with molten material.<br>Do not peel solidified product off the skin.<br>Burns must be treated by a physician.                |
| In case of eye contact                                      | : Remove contact lenses.<br>Protect unharmed eye.<br>If eye irritation persists, consult a specialist.                                                                          |
| If swallowed                                                | : Keep respiratory tract clear.<br>Do not give milk or alcoholic beverages.<br>Never give anything by mouth to an unconscious person.<br>If symptoms persist, call a physician. |
| Most important symptoms and effects, both acute and delayed | : None known.                                                                                                                                                                   |
| Notes to physician                                          | : Treat symptomatically.                                                                                                                                                        |

## 5. FIREFIGHTING MEASURES

|                                      |                                                                      |
|--------------------------------------|----------------------------------------------------------------------|
| Suitable extinguishing media         | : Water<br>Foam<br>Dry chemical<br>Carbon dioxide (CO <sub>2</sub> ) |
| Specific hazards during firefighting | : Do not use a solid water stream as it may scatter and spread fire. |
| Hazardous combustion products        | : Carbon oxides<br>Sulphur oxides                                    |

|                |                              |                             |                                                          |
|----------------|------------------------------|-----------------------------|----------------------------------------------------------|
| Version<br>1.0 | Revision Date:<br>2021/12/23 | SDS Number:<br>000000051123 | Date of last issue: -<br>Date of first issue: 2021/12/23 |
|----------------|------------------------------|-----------------------------|----------------------------------------------------------|

|                                               |                                                                                                                                                     |
|-----------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------|
| Specific extinguishing methods                | : Standard procedure for chemical fires.<br>Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. |
| Special protective equipment for firefighters | : Wear self-contained breathing apparatus for firefighting if necessary.                                                                            |

### 6. ACCIDENTAL RELEASE MEASURES

|                                                                     |                                                                                                                                    |
|---------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------|
| Personal precautions, protective equipment and emergency procedures | : Avoid dust formation.<br>Avoid breathing dust.<br>Ensure adequate ventilation.                                                   |
| Environmental precautions                                           | : No special environmental precautions required.                                                                                   |
| Methods and materials for containment and cleaning up               | : Pick up and arrange disposal without creating dust.<br>Sweep up and shovel.<br>Keep in suitable, closed containers for disposal. |

### 7. HANDLING AND STORAGE

#### Handling

|                                                 |                                                                                                                                                                      |
|-------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Advice on protection against fire and explosion | : Provide appropriate exhaust ventilation at places where dust is formed.<br>During processing, dust may form explosive mixture in air.                              |
| Advice on safe handling                         | : For personal protection see section 8.<br>Smoking, eating and drinking should be prohibited in the application area.<br>Minimize dust generation and accumulation. |
| Avoidance of contact                            | : Not applicable                                                                                                                                                     |

#### Storage

|                                          |                                                                                                                                                                |
|------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Conditions for safe storage              | : Electrical installations / working materials must comply with the technological safety standards.<br>Keep in a dry, cool place.<br>Maintain dryness of resin |
| Materials to avoid                       | : No materials to be especially mentioned.                                                                                                                     |
| Further information on storage stability | : No decomposition if stored and applied as directed.                                                                                                          |

### 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

#### Components with workplace control parameters

Date of first issue: 2021/12/23

|                         |            | exposure)                          | Permissible concentration     |       |
|-------------------------|------------|------------------------------------|-------------------------------|-------|
| glass, oxide, chemicals | 65997-17-3 | TWA (fibres)                       | 1 fibres per cubic centimeter | ACGIH |
|                         |            | TWA (Inhalable particulate matter) | 5 mg/m3                       | ACGIH |
|                         |            | TWA (fibres)                       | 1 fibres per cubic centimeter | ACGIH |
|                         |            | TWA (fibres)                       | 1 fibres per cubic centimeter | ACGIH |

**Engineering measures** : Local exhaust

**Personal protective equipment**

Respiratory protection : No personal respiratory protective equipment normally required.

Eye/face protection : Safety glasses

Skin and body protection : Protective suit

Hygiene measures : General industrial hygiene practice.

---

**9. PHYSICAL AND CHEMICAL PROPERTIES**

Appearance : pellets

Odour : slight

Melting point/range : > 260 °C

Flash point : Not applicable

Density : 1.3 - 2.1 g/ml (20 °C)

Solubility(ies)  
Water solubility : insoluble

Auto-ignition temperature : not determined

---

**10. STABILITY AND REACTIVITY**

Reactivity : No decomposition if stored and applied as directed.

Chemical stability : No decomposition if stored and applied as directed.

Possibility of hazardous : Stable under recommended storage conditions.

according to GB/T 16483 and GB/T 17519

Date of last issue: -  
Date of first issue: 2021/12/23

Incompatible materials : Not applicable

## Remarks : No data available

No data available

**Persistence and degradability**

No data available

**Bioaccumulative potential**

No data available

**Mobility in soil**

No data available

**Other adverse effects**

**Product:**

Additional ecological information : No data available

---

**13. DISPOSAL CONSIDERATIONS**

**Disposal methods**

Waste from residues : Where possible recycling is preferred to disposal or incineration.  
Dispose of in accordance with local regulations.

Contaminated packaging : Empty containers should be taken to an approved waste handling site for recycling or disposal.

---

**14. TRANSPORT INFORMATION**

**International Regulations**

**UNRTDG**

Not regulated as a dangerous good

**IATA-DGR**

Not regulated as a dangerous good

**IMDG-Code**

Not regulated as a dangerous good

**Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code**

Not applicable for product as supplied.

**National Regulations**

**GB 6944/12268**

Not regulated as a dangerous good

**Special precautions for user**

Not applicable
