

## TAIRILAC® AG15A3

Formosa Chemicals & Fibre Corporation - Acrylonitrile Butadiene Styrene

### General Information

#### Product Description

General Grade

Features: High gloss, Medium impact

#### General

|                 |                        |              |                            |
|-----------------|------------------------|--------------|----------------------------|
| Material Status | • Commercial: Active   |              |                            |
| Availability    | • Asia Pacific         | • Europe     | • North America            |
| Features        | • General Purpose      | • High Gloss | • Medium Impact Resistance |
| Uses            | • General Purpose      |              |                            |
| Agency Ratings  | • EC 1907/2006 (REACH) |              |                            |
| RoHS Compliance | • RoHS Compliant       |              |                            |
| UL File Number  | • E162823              |              |                            |

### Properties <sup>1</sup>

| Physical                                                                       | Nominal Value    | Unit                  | Test Method             |
|--------------------------------------------------------------------------------|------------------|-----------------------|-------------------------|
| Density / Specific Gravity <sup>2</sup>                                        | 1.05             |                       | ASTM D792               |
| Density (73°F)                                                                 | 1.05             | g/cm <sup>3</sup>     | ISO 1183                |
| Melt Mass-Flow Rate (MFR)                                                      |                  |                       | ASTM D1238              |
| 200°C/5.0 kg                                                                   | 2.2              | g/10 min              |                         |
| 220°C/10.0 kg                                                                  | 22               | g/10 min              |                         |
| Melt Mass-Flow Rate (MFR)                                                      |                  |                       | ISO 1133                |
| 200°C/5.0 kg                                                                   | 2.2              | g/10 min              |                         |
| 220°C/10.0 kg                                                                  | 22               | g/10 min              |                         |
| Molding Shrinkage - Flow (0.126 in)                                            | 4.0E-3 to 7.0E-3 | in/in                 | ASTM D955               |
| Molding Shrinkage (0.126 in)                                                   | 0.40 to 0.70     | %                     | ISO 294-4               |
| Mechanical                                                                     | Nominal Value    | Unit                  | Test Method             |
| Tensile Strength <sup>3</sup> (73°F)                                           | 6680             | psi                   | ASTM D638               |
| Tensile Stress (73°F)                                                          | 5950             | psi                   | ISO 527-2/50            |
| Flexural Modulus <sup>4</sup> (73°F)                                           | 356000           | psi                   | ASTM D790               |
| Flexural Modulus <sup>5</sup> (73°F)                                           | 348000           | psi                   | ISO 178                 |
| Flexural Strength <sup>4</sup> (73°F)                                          | 11700            | psi                   | ASTM D790               |
| Flexural Stress <sup>5</sup> (73°F)                                            | 8700             | psi                   | ISO 178                 |
| Impact                                                                         | Nominal Value    | Unit                  | Test Method             |
| Charpy Notched Impact Strength (73°F, 0.157 in)                                | 12               | ft·lb/in <sup>2</sup> | ISO 179                 |
| Notched Izod Impact (73°F, 0.250 in)                                           | 4.4              | ft·lb/in              | ASTM D256               |
| Hardness                                                                       | Nominal Value    | Unit                  | Test Method             |
| Rockwell Hardness (R-Scale, 73°F)                                              | 109              |                       | ASTM D785               |
| Thermal                                                                        | Nominal Value    | Unit                  | Test Method             |
| Deflection Temperature Under Load <sup>6</sup> (264 psi, Unannealed, 0.250 in) | 185              | °F                    | ASTM D648               |
| Deflection Temperature Under Load <sup>6</sup> (264 psi, Annealed, 0.250 in)   | 203              | °F                    | ASTM D648               |
| Deflection Temperature Under Load <sup>6</sup> (264 psi, Annealed, 0.157 in)   | 194              | °F                    | ISO 75-2/A              |
| Vicat Softening Temperature                                                    | 201              | °F                    | ASTM D1525 <sup>7</sup> |
| Vicat Softening Temperature                                                    | 201              | °F                    | ISO 306/B50             |
| Flammability                                                                   | Nominal Value    | Unit                  | Test Method             |
| Flame Rating (0.06 in)                                                         | HB               |                       | UL 94                   |

### Processing Information

| Injection          | Nominal Value | Unit |
|--------------------|---------------|------|
| Drying Temperature | 158 to 176    | °F   |
| Drying Time        | 2.0 to 3.0    | hr   |
| Mold Temperature   | 104 to 176    | °F   |
| Injection Pressure | 9960 to 15600 | psi  |

Notes

|                                                                                   |
|-----------------------------------------------------------------------------------|
| <sup>1</sup> Typical properties: these are not to be construed as specifications. |
| <sup>2</sup> 23°C                                                                 |
| <sup>3</sup> 2.0 in/min                                                           |
| <sup>4</sup> 0.59 in/min                                                          |
| <sup>5</sup> 0.079 in/min                                                         |
| <sup>6</sup> 120°C/h                                                              |
| <sup>7</sup> Rate A (50°C/h), Loading 2 (50 N)                                    |
