

**Polypropylene HSV103**

Version 1.01

Revision Date 27.02.2019

# Material Safety Data Sheet

## SECTION 1 Identification of the substance/mixture and of the company/undertaking

<b>Trade name</b>	Polypropylene HSV103		
<b>Synonyms</b>	Polypropylene, Propylene Polymer, Propene Polymer, 1-Propene, Homopolymer		
<b>Company</b>	Sasol Chemicals, a division of Sasol South Africa Ltd Sasol Place, 50 Katherine Street Sandton 2090 South Africa +27103445000		
<b>Telephone</b>	CHEMTREC North America Transport Emergency (24-hr)	(800) 424-9300	
	CHEMTREC World Wide Transport Emergency (24-hr)	(703) 527-3887	
	MSDS and Product Information (8:00am-4:30pm CST)	(281) 588-3315	
	Sasol LCCC Main Gate Guard	(337) 494-5142	
<b>E-mail address</b>	SasolElectronicSDS@us.sasol.com		

## SECTION 2 Hazards identification

### Classification of the substance or mixture

South Africa. GHS Classification and Labelling of Chemicals - SANS 10234

<b>Classification</b>	This substance is not classified as hazardous according to GHS.
-----------------------	---

### Label elements

<b>Pictogram</b>	Not applicable
------------------	----------------

<b>Signal word</b>	Not applicable
--------------------	----------------

Revision date 27.02.2019

Version 1.01

Print Date: 04.03.2019

## Polypropylene HSV103

Version 1.01

Revision Date 27.02.2019

**Hazard statements** This substance is not classified as hazardous according to GHS.

### Precautionary statements

**Prevention** This substance is not classified as hazardous according to GHS.

**Response** This substance is not classified as hazardous according to GHS.

**Storage** P403: Store in a well-ventilated place.

**Disposal** P501 Dispose of contents/container to an approved facility in accordance with local, regional, national and international regulations.

**Other hazards** May form combustible dust concentrations in air (during processing).

## SECTION 3 Composition/information on ingredients

<u>Components</u>	<u>CAS-No.</u>	<u>Weight percent</u>
Polypropylene	9003-07-0	>= 99.00

Exposure limit(s): See chapter 8

Classification and hazard labelling: See chapter 15

## SECTION 4 First aid measures

**Eye contact** At room temperature the product is not considered hazardous in contact with eyes. In case of eye contact with molten polymer, cool under running water for 3-5 minutes. Do not attempt to remove molten polymer. Get medical attention immediately.

**Skin contact** At room temperature the product is not considered harmful when in contact with skin. In case of skin contact with molten polymer immediately submerge the affected area in cold water to cool down polymer.

## Polypropylene HSV103

Version 1.01

Revision Date 27.02.2019

**Inhalation** Product does not release fumes at ambient temperatures. If exposed to fumes from heated polymer move to fresh air environment.

**Ingestion** At room temperature the product is not considered harmful when swallowed.

## SECTION 5 Firefighting measures

**Fire/explosion** Substance evolves toxic gases when burned.

**Hazardous combustion products** Carbon dioxide (CO<sub>2</sub>) Carbon monoxide. Acrolein. formaldehyde-like products

**Suitable extinguishing media** Dry chemical.  
Carbon dioxide (CO<sub>2</sub>)  
Water spray

**Protection measures and instructions** Wear self-contained breathing apparatus and protective suit.

## SECTION 6 Accidental release measures

**Environmental precautions** No special environmental precautions required.

**Methods for cleaning up** Shovel into suitable container for disposal.

Exposure controls/personal protection: See chapter 8

## SECTION 7 Handling and storage

**Safe handling advice** No special handling advice required under normal conditions. Molten polymer: Wear heat-resistant protective equipment.

## Polypropylene HSV103

Version 1.01

Revision Date 27.02.2019

**Advice on protection against fire and explosion** Keep away from heat and sources of ignition.

**Storage** Keep away from direct sunlight. Keep away from heat.

**Further information on storage conditions** Keep in a cool, well-ventilated place.

## SECTION 8 Exposure controls/personal protection

### Engineering measures

If user operations generate dust, fumes or mists, use ventilation to keep exposure to airborne contaminants below the exposure limit. Use only in an area equipped with explosion proof exhaust ventilation. The engineering controls also need to keep gas, vapor or dust concentrations below any lower explosive limits. Ensure adequate ventilation.

### Personal protective equipment

**Eyes** No eye protection is required under normal conditions. Molten polymer: Wear safety glasses with side shields.

**Skin** No special body protection is required under normal conditions. Molten polymer: Wear heat-resistant protective clothing.

**Inhalation** No personal respiratory protective equipment normally required. In the case of respirable dust and/or fumes, use self-contained breathing apparatus.

**Hand protection** No hand protection required under normal conditions. Molten polymer: Wear heat-resistant gloves.

### Exposure Guidelines

Components    Exposure limit(s)

PEL= Permissible Exposure Limits  
 TLV= Threshold Limit Value  
 EL= Excursion Limit

TWA= Time Weighted Average (8 hr.)  
 STEL= Short Term Exposure Limit (15 min.)  
 WEEL= Workplace Environmental Exposure Level

## SECTION 9 Physical and chemical properties

**State of matter**    Solid

**Colour**    Translucent to white

**Odour**    None to slightly waxy

**Form**    Solid form

**Boiling point/boiling range**    Not applicable

**Flash point**    > 350 ° C open cup

**Lower explosion limit**    No data available

**Upper explosion limit**    No data available

**Solubility(ies)**    Insoluble

**Viscosity**    No data available

**Melting point/range**    130 - 165 ° C

**Density**    0.88 - 0.92 g/cm<sup>3</sup>

**pH**    No data available

**Partition coefficient:**    No data available

## Polypropylene HSV103

Version 1.01

Revision Date 27.02.2019

n-octanol/water

### SECTION 10 Stability and reactivity

<b>Reactivity</b>	Stable under normal conditions. Continuous heating above 160 °C will lead to thermal oxidation.
<b>Chemical stability</b>	Stable under recommended storage conditions.
<b>Conditions to avoid</b>	Heat, flames and sparks.
<b>Hazardous decomposition products</b>	Carbon dioxide (CO <sub>2</sub> ) Carbon monoxide. Acrolein. formaldehyde-like
<b>Materials to avoid</b>	Oxidizing agents.
<b>Hazardous polymerisation</b>	Strong oxidizing agents

### SECTION 11 Toxicological information

<b>Acute oral toxicity</b>	No data available
<b>Acute inhalation toxicity</b>	; No data available
<b>Acute dermal toxicity</b>	No data available
<b>Skin irritation</b>	No data available
<b>Eye irritation</b>	No data available
<b>Sensitisation</b>	No data available
<b>Repeated dose toxicity</b>	No data available
<b>Carcinogenicity</b>	No data available
<b>Further Information</b>	This information is not available.

Version 1.01

Revision Date 27.02.2019

### SECTION 12 Ecological information

#### Ecotoxicity effects

Toxicity to fish No data available

Toxicity to daphnia and other aquatic invertebrates No data available

Toxicity to algae No data available

Toxicity to bacteria No data available

Toxicity to fish No data available

Chronic toxicity in aquatic invertebrates No data available

Biodegradability Expected to be biodegradable

Bioaccumulation No data available

### SECTION 13 Disposal considerations

#### Waste Classification

Waste from residues / unused products Disposal should be in accordance with local, regional and national legislations.

Handling and storage: See chapter 7

Exposure controls/personal protection: See chapter 8

### SECTION 14 Transport information

Further information Not classified as dangerous in the meaning of transport regulations.

**SECTION 15 Regulatory information**

**U.S. Federal Classifications:**

**OSHA Hazards** This material is non-hazardous as defined by the American OSHA Hazard Communication Standard.

**SARA 311/312** No SARA Hazards

**U.S. Regulated Ingredients:**

All reasonable efforts were exercised to compile this SDS in accordance with the Globally Harmonized System of Classification and Labelling of Chemicals (GHS). The SDS only provides information regarding the health, safety and environmental hazards at the date of issue, to facilitate the safe receipt, use and handling of this product in the workplace and does not replace any product information or product specifications. Since Sasol and its subsidiaries cannot anticipate or control all conditions under which this product may be handled, used and received in the workplace, it remains the obligation of each user, receiver or handler to, prior to usage, review this SDS in the context within which this product will be received, handled or used in the workplace. The user, handler or receiver must ensure that the necessary mitigating measures are in place with respect to health and safety. This does not substitute the need or requirement for any relevant risk assessments to be conducted. It further remains the responsibility of the receiver, handler or user to communicate such information to all relevant parties that may be involved in the receipt, use or handling of this product.

Although all reasonable efforts were exercised in the compilation of this SDS, Sasol does not expressly warrant the accuracy of, or assume any liability for incomplete information contained herein or any advice given. When this product is sold, risk passes to the purchaser in accordance with the specific terms and conditions of sale.
