

TRINSEO CELEX™ 3700-15

Polycarbonate Resin

Overview

Trinseo CELEX™ 3700-15 is an ignition resistant polycarbonate (PC) resin that contains no chlorinated or brominated or phosphorous based flame retardants and provides superior ignition resistance. This resin combines good mechanical and high heat properties and maintains excellent processability. It is an easy flow PC resin suitable for use in injection molded applications in the computer, electronics, electrical and information technology equipment markets.
