The EU-Directive 2012/19/EU, amended last by Directive (EU) 2018/849 of the European Parliament and of the Council of 30 May 2018, defines the recovery of waste electrical and electronic equipment. Therefore, we as raw material supplier cannot provide a statement of compliance, because this is dependent on the final article. We have examined the WEEE directive and as far as we can determine, the only requirement that would apply to INEOS Styrolution is to disclose the presence of brominated flame retardants (see Annex VII of the directive). We can state that INEOS Styrolution does not deliberately add any brominated flame retardants to its PRODUCT Luran® S grades nor are they present to the best of our knowledge, in any of the raw materials used to manufacture these grades.
